In 1990, the Federal Government enacted the Americans with Disabilities Act ("ADA"). The Town of Battle Ground, Indiana recognizes its legal obligation to comply with Title II of the ADA and hereby establishes a transition plan to ensure compliance of this federal law, rules and regulations. Therefore, Battle Ground will identify barriers that exist and state how and when the barriers are to be removed by providing a means to address complaints of discrimination, by encouraging public input to assess, address and meet access needs, and by establishing periodic reviews of the plan to monitor progress and compliance. The purpose of the Plan is to ensure that the citizens of Battle Ground are provided full access to Battle Ground's programs, services and activities in a timely manner. The Town of Battle Ground's elected officials and staff believe the ability to accommodate disabled persons is essential to good customer service, the quality of life Battle Ground residents seek to enjoy and to effective governance. Sidewalk Inventory

In an effort to remove barriers to streets and sidewalks, the Town of Battle Ground arranged for an inventory of all curbs and sidewalks within Battle Ground's jurisdiction. The inventory procedure is intended to identify a comprehensive list or inventory of all curbs and sidewalks in the Battle Ground's jurisdiction that are not ADA compliant. This is composed of an effort to both fully inventory all of the infrastructure that is present and then to identify those items in the system which are not compliant with ADA requirements.

The Town of Battle Ground has developed its inventory of the existing system in three steps:

Step 1: Aerial Maps

Aerial photographs of Battle Ground were used to map the locations on the system that include sidewalks and/or curbs. Area Plan Commission (APC) staff measured the width of visible sidewalks. All sidewalks at least four feet in width, and those where width could not be determined, were

evaluated in the field by APC staff. All curb ramps were measured. All maps are included in *Appendix A*.

Step 2: Preparation of a Map of Compliant and Non-Compliant features

Prioritization maps were produced for both sidewalks and curb ramps. They are available in *Appendix A*.

Step 3: Request for Review and Public Input

As part of the Transition Planning process, the draft plan and maps prepared in Step 2 are made available for comment. The plan will be available for review on the Town's website (www.battleground.in.gov) and APC's website (www.tippecanoe.in.gov/apc) and on display at the Town Hall. Comments from the public are welcome.

Assessment Procedures

The assessment procedure is intended to establish the relative importance or priority of the various obstacles that are identified in the Inventory.

Sidewalks and curb ramps were assessed separately. Sidewalks could score between 0 and 11. Ramps could score between 0 and 16, with higher scores indicating more compliance issues for both sidewalks and ramps. To break potential ties a "core zone" was delineated in Battle Ground's downtown. Curb ramps and sidewalks adjacent to or within the core took higher priority than similarly scoring facilities elsewhere. Inventory and priority maps are available in *Appendix A*.

Building Inventory

Battle Ground owns a limited number of properties. A self-evaluation/assessment of each of the Battle Ground's physical facilities will be conducted by December 31, 2018 to update the 2012 transition plan. The ADAAG standards will be used to evaluate and collect the data on the buildings. The data that is collected will be included in the update of the Transition Plan.

Funding & Scheduling

Battle Ground will use the General Fund Town Improvement Curb & Sidewalk Fund to repair, modify or reconstruct sidewalk and ramps. Battle Ground intends to spend \$5,000 annually to repair, modify or reconstruct sidewalk and ramps to meet current ADA standards.

Review & Evaluation

In January of each year the Town Council will meet with the ADA Coordinator to review Battle Ground's efforts put forth the previous year to comply with the ADA and the implementation of the Transition Plan. At this time an update to the Transition Plan will be done. This shall include any adjustment to the number of sidewalks and ramps that are non-compliant, any changes to funding sources and changes to the schedule, if needed. The Town Council and ADA Coordinator shall review the prioritization of repairs, modifications or replacement of sidewalks and curbs for the upcoming year. At this time they will also determine the number of sidewalks and curbs that can be brought into compliance with ADA standards (if different than previously stated in Transition Plan).

The review and evaluation will continue each January until all sidewalks and ramps are ADA compliant and the Transition Plan is completed. The meeting date in 2019 is January 14, 2019.
